

## Project Overview

As of February 7, 2013

## Weinland Park Community Mobility Plan

**Description and Benefits:** Project produced a plan to address pedestrian safety, bicycle accessibility and livable street issues in the Weinland Park neighborhood. The improvements will enhance walkability and neighborhood environment by providing adequate pedestrian and bicycle facilities and reducing traffic conflicts. Public involvement was a key part of the process, with open houses, walk audits, workshops, porch chats, surveys and Web site access. Project limits include the area bounded by High, Twelfth, Grant and Fifth plus Summit and North Fourth streets.

### Schedule:

The Weinland Park Safety & Mobility Committee approved latest revision of designs in September 2012. Detail design commenced in November 2012. Work in 2013 includes 6<sup>th</sup> Avenue sidewalk east of 5<sup>th</sup> Street, curb extension on Indianola Avenue, Fifth Avenue and 9<sup>th</sup> Avenue. Future work includes additional curb work and upgrades on Indianola between 5<sup>th</sup> and 9<sup>th</sup> avenues.

**Cost:** Planning only - \$200,000  
Design- \$135,000 (2011)  
Construction \$225,000 (Phase 1, proposed 2013)
